

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Monitoring Reporting Requirements Not Met for
FRANKFORT PSD WILEY FORD WV3302926

Our water system violated drinking water monitoring requirements. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation.

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During periods listed in the table below, we did not monitor or test as required and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

At this time, there is nothing you need to do.

The table below lists the monitoring we did not conduct, other violations, and the associated compliance period.

Monitoring Violation	Year-Fed Report #	Monitoring Frequency	Compliance Period
52, ROUTINE TAP M/R (LCR) LEAD & COPPER RULE Required Lead & Copper Sample Results Not Submitted as Required	2023 214585	Biennially	6M 202301

What happened? What is being done? (Describe corrective action)

Wrong address was given to FPSD.
 FPSD now has the correct address
 All changes will be made on L+C
